

IT Relocations

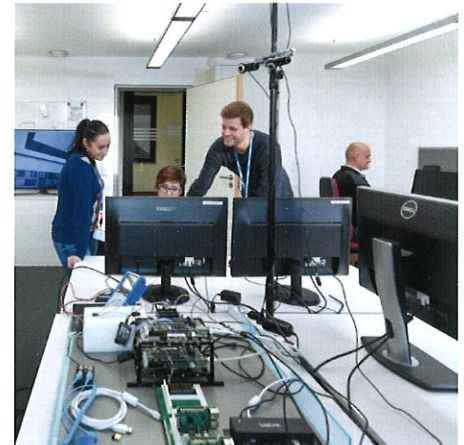

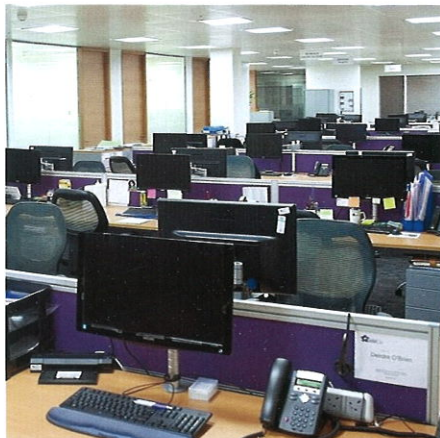

Full Turn-Key Move Services

We have 100+ years combined experience in IT Relocations. People Moves, Lab Moves and Data Center Moves require a unique blend of technical knowledge, commercial real estate, construction and facilities expertise to lead the planning, design, budgeting and management of the work effort. EMR CPR is comprised of a diverse team with professionals in these fields including but not limited to move management, facilities, commercial real estate, construction, network, storage, security, application development, structured cabling, and telecommunications backgrounds. Ask us about our **On-Demand Fully Managed Teams**.

Office Moves

Server Moves

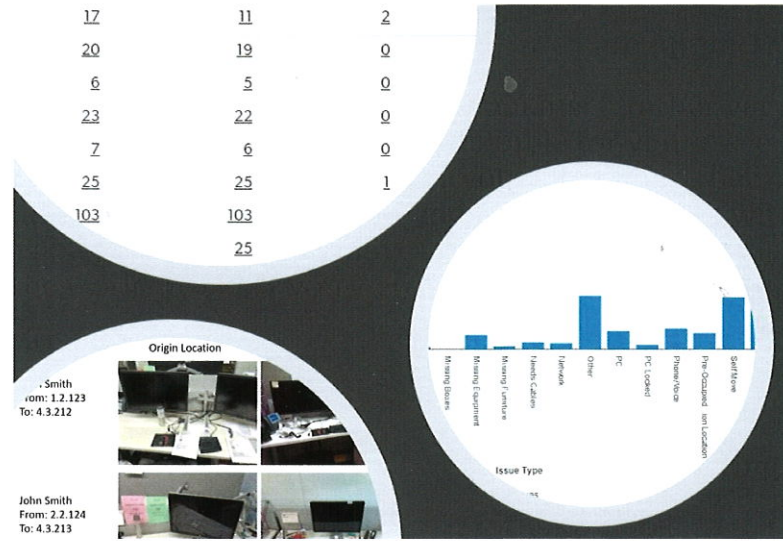

Lab Moves

JARVIS - Live Move Tracking App

ARVIS (Just a rather very intelligent system) makes it possible for you to see every IT asset, User, Box, etc. of where it is at before, during and after you move, all in real-time with pictures. Can you imagine being able to manage your moves from anywhere in the world just as if you were there?

- **Pictures in real time**
- **Ticket Portal**
- **Automated Reporting**
- **Status Updates**

Project Management

We have fostered long-term professional and community relationships deeply and uniquely rooting us in the commercial relocation industry. Take advantage of our team's commitment to the success of your next project.

We have established a wide-spread reputation for relocation excellence with large corporations to small businesses, commercial real estate operations, and office furniture systems dealers throughout the world.

- **Move Management**
- **Data Center Moves**
- **Office Moves**

Installs, Moves, Adds, Changes

We make your move seamless and easy; whether your office is growing rapidly and you need to move to a newer place to take things to the next level.

- **Build Images / OS**
- **Disconnect / Reconnect**
- **Hardware Deployments**
- **Rack / Stack / Cable**
- **Software Deployments**
